

# How to download YouTube video or audio?

When you downloading from YouTube

<http://en.savefrom.net/1-how-to-download-youtube-video/>  
you have to choose the video quality of downloaded file.

The quality of available download is depending on the file that been uploaded by the owner of the footage. If the footage been uploaded with low quality - nothing can be done to improve the resolution of the video source,

The quality of the sound on YouTube is mp3 or mp4 format only - good quality.
